

AJ Small Projects 2009 Runner Up

'The Shed' has won second prize in the Architects' Journal Small Projects Competition 2009.

Mary Arnold Forster received the award - which is open to projects with a contract value of less than £250,000 – at a ceremony at New London Architecture, London.

Mary said, ' It is great for Skye that our architecture is being recognised at a UK level.'

Alasdair Stephen added, ' The new confidence in Scotland, because of the parliament, is being reflected in the quality of our architecture. We should feel proud of our built heritage and also of the work we are producing today.'
